# **For games, video, music and stage. Excitement has no borders.**

After food, clothing and shelter comes fun. To have fun is to live.  
The more we keep our hearts entertained, the more fulfilling our lives will be.

Marvelous Inc. is an all-round entertainment company that produces fun.  
We create interesting and original intellectual property (IP) for games, video, music and stage.  
Leveraging our strength in “multi-content, multi-use and multi-device,” we transcend changes in the times to consistently create fresh entertainment.  
We strive to deliver wonder and excitement never seen before to the people of the world.

Before you know it, we will be one of Japan’s leading content providers.  
And we will be an entertainment company that offers a multitude of challenges and thrills and leaves people wondering, “What’s coming next from this company?”

Personally, I’m really looking forward to what lies ahead at Marvelous.

## ONLINE GAME

**Delivering buzz-worthy content and  
expanding the number of users  
worldwide**

In the Online Game Business, we are engaged in the planning, development, and operation of online games for App Store, Google Play, and SNS platforms. In order to provide the rapidly evolving online game market quickly and consistently with buzz-worthy content, we are engaged in proactive development efforts through alliances with other IPs in addition to our own.

By promoting multi-use of original IP produced by Marvelous and multi-device compatibility of products for PC, mobile, smartphone, tablet and other devices, we work to diversify revenue streams. In the overseas online game market, we will strive to expand our user base on a global scale by strengthening marketing efforts and advancing licensing services with a focus on Asia.

# CONSUMER GAME

**Multifaceted rollout through creation of original IPs and alliances with other influential IPs**

## | Game Software

We are engaged in the planning, development, production, marketing, and commission-based development of game software for home-use game machines. The continuous expansion of serialized products is part of our work as much as the creation of new proprietary IP suitable for media mixing and merchandising. Other activities include content production in tune with market requirements, for example, promotion of the network business. Moreover, we maintain development frameworks capable of accommodating also new kinds of hardware that may emerge in the future. The commission-based development business, which covers the entire width of game development operations, has accumulated an ample track record and enjoys a sterling reputation.

## | Amusement

We are engaged in the planning and development of amusement machines. We will create a long-term business model while developing new products that resonate with user preferences by fostering alliances with influential IPs.

## AUDIO & VISUAL

Developing a wide range of diverse content for music, video and live entertainment markets

### | Audio & Visual

We continue to discover highly buzz-worthy content and are engaged in the creation and production of animation products, and the creation and commercialization of music and video content. We have also been focusing on the music and video content distribution business as well as the business operations surrounding secondary usage of content such as the sale of overseas programs.

### | Live Entertainment

We are engaged in the planning, producing, and promoting of stage productions and musicals based on manga comics, animation, and games (2.5 dimension musical production). Our operations include the creating and developing of popular long-sellers, and proactively promoting adaptations from stage productions to other media, such as the commercialization of music and video, the production of original merchandise, and the showing of live performances.
